You are only allowed to create one registration account and 2100NEWS will block multiple accounts of the same user.

**6.2.** KYC procedure is a customer identification process to ensure that each user is appropriately verified. It is not only a legal requirement to assess and monitor risks, to prevent doing business with a money launderer, terrorist or other criminal, even more importantly, KYC is a fundamental practice to protect a project and its supporters from fraud and losses due to illegal funds and transactions. You acknowledge and agree that to ensure the safety of the users’ accounts, to counteract money laundering and to enforce its internal security policy, 2100NEWS shall use internal controls and programs for such control to be maintained.

2100NEWS, through these programs and controls, shall collect and store information about the users and their transactions, including, but not limited to, personal information about you, such as your personal document ID number, scan of your ID document, your name, address, nationality and any other information required by us. **6.4.** 2100NEWS can request from you any additional identifying information and support documents at any time at the request of any competent authority or in case of application of any applicable law or regulation, including laws related to anti-money laundering (legalization) of incomes obtained by criminal means, or for counteracting financing of terrorism. By agreeing to this Agreement, you acknowledge and agree that we maintain verification levels that require user participation and verification to obtain, with leveled permissions based on user-supplied information, our ability to verify it, and our internal policies. You accept that you may not be able to achieve your desired level of verification, and we reserve the right in our sole discretion, to determine the appropriate verification level for any user, as well as the right to downgrade users without notice and to not verify the user at all. We may, from time to time, implement policies restricting verification levels by nationality, country of residence, or any other factor. withdraw NWSs based on your verification level. In highly unlikely cases, where you would be initially approved in the KYC procedure and we would later on realize that you are from Restricted Use Areas (newly added or existing), we will return Digital Assets paid by you to your address and we shall not issue/ you will not be able to withdraw NWSs tokens from your Account. You expressly agree and acknowledge that this might occur and you hereby indemnify 2100NEWS against any losses associated with such event and your inability to purchase or withdraw NWSs.

## **7. NWS TOKEN EXCHANGE RATE MODEL**

**7.1.** Base price for NWS token shall be set at Digital Assets equivalent of 0.10 USD at the given moment. The exchange rate between NWS and Digital Assets shall not be predefined before the beginning of the public crowdsale and will not be unified as each contributor individually will be, as a part of the registration process, obliged to decide, which of the exchange rate defining models specified in 7.2 and 7.3 shall apply for his/her contribution.

**7.2.** In the Pre-Crowdsale, the exact Digital Asset (ETH)/USD exchange rate shall be, depending on the contributor's decision made in the registration process, defined based either on method (a) or method (b) as specified bellow:

- (a) the calculated market's Digital Asset (ETH)/USD Hourly variable exchange rate as it will be calculated at the end of each hourly period, within which the contributor's particular transaction in the Digital Asset was confirmed on the Ethereum network ("Applicable hourly period"), based on the following formula:

*Applicable ETH/USD Hourly variable exchange rate = (highest rate within the Applicable hourly period + lowest rate within the Applicable hourly period + closing rate of the Applicable hourly period) / 3*

At the end of each hour a new hourly period starts, and the Hourly variable exchange rate is therefore updated on an hourly basis. Since there is no way to guarantee that contributed Digital Assets sent within certain period will be also confirmed for that period, the moment of the confirmation shall be relevant.

- (b) the market's Digital Asset (ETH)/USD end of Pre-Crowdsale exchange rate

as applicable at the moment when the Pre-Crowdsale ends, and as it will be fixed and announced by 2100NEWS on Website at the end of the Pre-Crowdsale.

**7.3.** In the Crowdsale, the exact Digital Asset (ETH)/USD exchange rate shall be, depending on the contributor's decision made in the registration process, defined based either on method (a) or method (b) as specified bellow:

- (a) the calculated market's Digital Asset (ETH)/USD Hourly variable exchange rate as it will be calculated at the end of each of the Applicable hourly periods based on the formula detailed in subsection 7.2. (a) above.
- (b) the market's Digital Asset (ETH)/USD end of Crowdsale exchange rate as applicable at the moment when the Crowdsale ends, and as it will be fixed and announced by 2100NEWS on Website at the end of the Crowdsale.

**7.4.** 2100NEWS reserves the right to change the above exchange rate defining model and other related terms at any time on its sole discretion, due to organizational or technical reasons.

#### **8.5. Distribution:**

**(i) Minimum Threshold (Floor or Soft-cap).** In order for the distribution to be successful, 6,000,000 NWS tokens (“Minimum Threshold”) needs to be acquired during the distribution by the contributors. Minimum Threshold is not specified upfront in Digital Assets or its equivalent in USD, as it shall depend on the applicable exchange rates between NWS and Digital Assets. If Minimum Threshold will not be achieved, then all funds paid in Digital Assets shall be returned to users who made the contribution in the same form of Digital Assets the contribution has been made. Digital Assets shall be returned as soon as reasonably possible. In this case users shall not have a right to retain any NWSs and 2100NEWS will not have any further obligations to users, under these Terms or any other agreement, after user’s contribution is returned to the user’s Digital Assets wallet address.

- **(a) Legal Risk concerning Security Regulation.** There is a risk that in some jurisdictions 2100NEWS token might be considered to be a security, now or in the future. 2100NEWS does not give warranties or guarantees that 2100NEWS tokens are not a security in any jurisdiction. Each 2100NEWS token holder shall bear its own legal or financial consequences of 2100NEWS tokens being considered a security in their respective jurisdiction.

The legal ability of 2100NEWS to provide 2100NEWS tokens in some jurisdictions may be eliminated by future regulation or legal actions. In the event, it turns out with a high degree of certainty that 2100NEWS tokens are not legal in certain jurisdiction, 2100NEWS will based on its sole discretion either (a) cease operations in that jurisdiction, or (b) adjust 2100NEWS tokens in a way to comply with the regulation should that be possible and viable.

It is your obligation to check if acquisition and disposal of 2100NEWS tokens is legal in your jurisdiction, and by accepting these Terms you expressly agree and warrant that you will not use 2100NEWS tokens should their use not be legal in the relevant jurisdiction.

There can be no assurance that governmental authorities will not examine the operations of 2100NEWS and/or pursue enforcement actions against 2100NEWS. Such governmental activities may or may not be the result of targeting 2100NEWS in particular. All of this may subject 2100NEWS to judgments, settlements, fines or penalties, or cause 2100NEWS to restructure its operations and activities or to cease offering certain products or services, all of which could harm 2100NEWS's reputation or lead to higher operational costs, which may in turn have a material adverse effect on the 2100NEWS tokens and/or the development of the 2100NEWS Services and software.

- **(b) Risk of malfunction of blockchain.** Nobody can guarantee the Ethereum source code used by 2100NEWS will be flaw-free. It may contain certain flaws, errors, defects and bugs, which may disable some functionality for users, expose users' information or otherwise. Such flaw would compromise the usability and/or security of 2100NEWS and consequently bring adverse impact on the value of 2100NEWS token. Open source codes rely on transparency to

promote community-sourced identification and solution of problems within the code.

- **(c) Update of the Source Code.** The Ethereum source code could be updated, amended, altered or modified from time to time by the developers and/or the community of Ethereum. Nobody is able to foresee or guarantee the precise result of such update, amendment, alteration or modification. As a result, any update, amendment, alteration or modification could lead to an unexpected or unintended outcome that adversely affects 2100NEWS token and/or 2100NEWS operation or market value.
- **(d) Internet transmission risks.** You acknowledge that there are risks associated with utilizing an Internet-based Digital Assets, Products and Website including, but not limited to, the failure of hardware, software, and Internet connections. You acknowledge that 2100NEWS shall not be responsible for any communication failures, disruptions, errors, distortions or delays you may experience when using our Services, Website, Product howsoever caused.
- **(e) Cryptography risks.** You acknowledge that there are risks associated with cryptography, such as code cracking or technical advances such as the development of quantum computers, could present risks to all cryptocurrencies including our Product. This could result in the theft, loss, disappearance, destruction or devaluation of the Product. To a reasonable extent, 2100NEWS will be prepared to take proactive or remedial steps to update the protocol underlying 2100NEWS in response to any advances in cryptography and to incorporate additional reasonable security measures where appropriate. It is impossible to predict the future of cryptography or the future of security innovations to an extent that would permit the 2100NEWS accurately guide the development of 2100NEWS to take into account such unforeseeable changes in the domains of cryptography or security.
- **(f) Development Failure or Abortion.** 2100NEWS is still in the process of development rather than a finished product ready to launch. Due to the technological complexity and difficulty that may be uncertain, unforeseeable and/or insurmountable, the development of all or some Services could fail or abort at any time for any reason.
- **(g) Forking.** Ethereum is an open source project and supported by the community. The developers of 2100NEWS do not lead the development, marketing, operation or otherwise of Ethereum. Anybody may develop a

patch or upgrade of the source code of Ethereum's source without prior authorization of anyone else. The acceptance of Ethereum patches or upgrades by a significant, but not overwhelming, percentage of the users could result in a "fork" in the blockchain of Ethereum, and consequently the operation of two separate networks and will remain separate until the forked blockchains are merged. The temporary or permanent existence of forked blockchains could adversely impact the operation and the market value of 2100NEWS tokens and in the worst case scenario, could ruin the sustainability of 2100NEWS. While such a fork in the blockchain of Ethereum would possibly be resolved by community-led efforts to merge the forked blockchains, the success is not guaranteed and could take long period of time to achieve.

- **(h) Risk of unfavorable regulatory action in one or more jurisdictions.** Blockchain technologies have been the subject of scrutiny by various regulatory bodies around the world. 2100NEWS tokens could be impacted by one or more regulatory inquiries or actions, including but not limited to restrictions on the use or possession of 2100NEWS tokens, which could impede or limit their existence, permissibility of their use and possession, and their value.
- **(i) Risk of theft and hacking.** Hackers or other groups or organizations may attempt to interfere with your third-party wallet, the Website or the availability of 2100NEWS tokens in any number of ways, including without limitation denial of service attacks, Sybil attacks, spoofing, smurfing, malware attacks, or consensus-based attacks.
- **(j) Risk of mining attacks** Ethereum blockchain, which is used for the 2100NEWS tokens, is susceptible to mining attacks, including but not limited to double-spend attacks, majority mining power attacks, "*selfish-mining*" attacks, and race condition attacks. Mining Attacks, as described above, may also target other blockchain networks, with which 2100NEWS tokens interact with. Any successful attacks present a risk to the 2100NEWS tokens.
- **(k) Risk of loss of value and uninsured losses.** Value of NWSs may fluctuate and you may suffer loss in value of such acquired NWSs and lose all of the value. In addition to the loss of value risk, NWSs are entirely uninsured and are unlike bank accounts or accounts at some other financial institutions.
- **(l) Risk related to your Private Keys.** Loss of private key associated with your digital assets wallet will result in loss of 2100NEWS tokens held there. You understand and agree the 2100NEWS shall not be responsible for any such

losses.

- **(m) Project Completion.** The development of some of the 2100NEWS Services and software may be abandoned for a number of reasons, including, but not limited to, lack of interest from the public, lack of funding, lack of commercial success or prospects, or departure of key personnel.
- **(n) Unanticipated risks.** Cryptocurrencies and blockchain technologies are new and untested technology and in addition to the risk outlined in these Terms, there are also unforeseeable risks that may materialize as unanticipated.

**11.2.** You acknowledge, agree and warrant that you have been warned of the potential risks involved by using our Services, Website, Ecosystem and Product and other relevant technologies mentioned herein as well as that there may be other risks involved, which are not specified herein and that you fully accept such risks.

**13.1.** You are solely responsible and liable to declare, bear and pay all taxes, duties, imposts, levies, tariffs and surcharges that might be imposed by the laws and regulations of any jurisdiction as a result of or in connection with the 2100NEWS tokens, use of Services, Website, Platform or any other 2100NEWS Product. 2100NEWS is not giving any advice regarding tax issues and is not responsible for determining any tax implications connected with its Product, Website or Service. 2100NEWS makes no representation as to the tax implication of any jurisdiction. You shall be solely liable for all such penalties, claims, fines, punishments, liabilities or otherwise arising from his/her underpayment, undue payment or belated payment of any applicable tax.

**13.2.** All fees and charges payable by you to 2100NEWS are exclusive of any taxes and if certain taxes shall be applicable, they shall be added on top of applicable amount. Upon our request, you will provide us any information we reasonably request to determine whether we are obligated to collect VAT from you, including your VAT identification number. If any deduction or withholding is required by law, you will notify us and will pay us any additional amounts necessary to ensure that the net amount that we receive, after any deduction and withholding, equals the amount we would have received if no deduction or withholding had been required. Additionally, you will provide us with documentation showing that the withheld and deducted

amounts have been paid to the relevant taxing authority.

IN ADDITION TO THE ABOVE, 2100NEWS SHALL NOT BE LIABLE FOR ANY LOSS OF PROFIT, LOSS OF BUSINESS, TRADING LOSSES, LOSS IN VALUE, OR OTHER LOSS. THIS APPLIES EVEN IF SUCH DAMAGES ARE FORESEEABLE.

**14.2.** EACH PARTY ACKNOWLEDGES THAT THE FEES PAYABLE HEREUNDER REFLECTS THE ALLOCATION OF RISK SET FORTH IN THE AGREEMENT AND THAT EACH PARTY WOULD NOT ENTER INTO THE AGREEMENT WITHOUT THESE LIMITATIONS ON LIABILITY.

#### **15. INDEMNIFICATION**

**15.1.** You will defend, indemnify and hold 2100NEWS, its affiliates, entities included in the ecosystem and licensors and its officers, directors, contractors, employees, agents and representatives, harmless from and against all claims, actions, demands, liabilities, damages, losses, costs and expenses (including legal fees) relating to or arising from (a) your use of our Services, Website, Product (b) your breach of these Terms or any other liabilities arising out of your use of the Services, Website and Product or the use by any other person accessing the Website, Service or Product using your computer and/or your Personal Information (c) your violation of any rights of any other person or entity in connection with these Terms (d) third-party claims concerning this Terms or your thereof.
